Make a Poppy

Use this template to create and decorate a poppy flower for Anzac Day.

You will need:

- Scissors
- Glue
- Red pencils/textas

Optional materials:

- Red crepe paper / card
- Pipe cleaner (preferably green) or popsicle stick
- Safety pin
- Sticky tape

Instructions:

1. Colour the poppy shape red.
Alternatively you can cut out the poppy shape and trace it on to some red crepe paper or card.
2. Cut out the poppy using scissors.
3. Cut out the black circle.
4. Glue the black circle in the middle of the poppy
5. If you would like to wear the poppy, tape a safety pin to the back of it.
Alternatively, you can attach a pipe cleaner (or clean popsicle stick) to the back of the poppy then stand the poppies in some soil to create a poppy field.
