Acknowledgement to Country

TSH recognises the Traditional Owners of the land on which we live, learn and work today. We acknowledge Aboriginal and Torres Strait Islander peoples continuing spiritual and cultural connection to Country across Western Australia that goes back for many generations. We pay our respect to Elders past, present and emerging. TSH welcomes all Aboriginal and non-Aboriginal people to our services and seeks their wisdom in our work to improve health and developmental outcomes for all children.

TSH 2026-2030 Strategic Plan

Hear. Speak. Thrive.

The early years matter. They shape a child's whole life and having the right support at the right time can change their path.

At Teach, Speak, Hear (TSH), we believe every child deserves the opportunity to be heard, to communicate with confidence, and to take part fully in their world. Every day our teams empower children to be heard. They provide practical support to families and they bring specialist integrated education and therapy together in ways that make getting help feel simpler and lighter for families.

Our purpose - *In partnership with families, we empower children to hear, communicate, connect, and learn, leading to stronger communities* - guides every decision we make.

We envision communities where children with hearing, speech, or language challenges receive early, holistic, and consistent support so they can communicate, learn and thrive.

Our **2026-2030 Strategic Plan, Hear. Speak. Thrive.** sets out how we will move closer to this vision. It explains how we will meet children earlier, stand alongside their families and caregivers, and keep improving the way we support, teach and advocate.

Over the next five years, we will work as one TSH to:

- Reach more families, earlier.
- Make access to support simpler and more connected.
- Strengthen support for children across developmental stages.
- Invest in our staff so they feel valued, supported and able to do their best work.
- Work closely with partners who share our commitment to children and families.
- Show the real impact of our integrated education and therapy model.

Hear. Speak. Thrive. describes both who we are now and where we are heading - towards a future where support is easier to find, pathways are clearer and children receive the right care at the right time, close to where they live, learn and play.

Over the next five years, we will focus on what matters most to families: early support, clearer pathways and more flexible ways of connecting with our services.

Thank you for the trust you place in TSH, and I invite you to read our 2026-2030 Strategic Plan and to stay in conversation with us about how we can best support children to communicate, connect and thrive in the world.
